Equation (4) on page 585 reads

$$N_{jt} \equiv \min \left[\frac{N_{ijt}^1}{\overline{N}_{jt}^1} \div \left(\frac{s_{jt}^1}{S_{jt}} \right), \frac{N_{ijt}^2}{\overline{N}_{jt}^2} \div \left(\frac{s_{jt}^2}{S_{jt}} \right) \right]$$
$$= \lim_{\varrho \to 0} \left(\left(\frac{s_{jt}^1}{S_{jt}} \right)^{\frac{1}{\varrho}} \frac{N_{ijt}^1}{\overline{N}_{jt}^1} \right)^{\frac{\varrho-1}{\varrho}} + \frac{s_{jt}^2}{S_{jt}} \Bigg)^{\frac{1}{\varrho}} \frac{N_{ijt}^2}{\overline{N}_{jt}^2} \Bigg)^{\frac{\varrho-1}{\varrho}} \Bigg)^{\frac{\varrho}{\varrho-1}} .$$

There are three left parentheses missing in the second line. The equation should read:

$$N_{jt} \equiv \min \left[\frac{N_{ijt}^1}{\overline{N}_{jt}^1} \div \left(\frac{s_{jt}^1}{S_{jt}} \right), \frac{N_{ijt}^2}{\overline{N}_{jt}^2} \div \left(\frac{s_{jt}^2}{S_{jt}} \right) \right]$$
$$= \lim_{\varrho \to 0} \left(\left(\frac{s_{jt}^1}{S_{jt}} \right)^{\frac{1}{\varrho}} \left(\frac{N_{ijt}^1}{\overline{N}_{jt}^1} \right)^{\frac{\varrho-1}{\varrho}} + \left(\frac{s_{jt}^2}{S_{jt}} \right)^{\frac{1}{\varrho}} \left(\frac{N_{ijt}^2}{\overline{N}_{jt}^2} \right)^{\frac{\varrho-1}{\varrho}} \right)^{\frac{\varrho}{\varrho-1}} .$$
